End to End Asset Tracking Solution

The oneTrack™ solution is designed for accurate asset tracking and increasing productivity. Our unique RFID solution eliminates identification issues and makes reconciliations quick, simple and accurate.

oneTrack™ components:

- oneTrack™ cashbox
- CashCode one™ bill validator
- Docking Station (up to 4 per PC)
- Network enabled* CashCode MySQL database (if required)
- Thermal printer for printing Cashbox Content Report
- Connectivity to count & sorting machines*

Remove cashbox

Database Reporting:

- Cashbox asset information
- Revenue report by each cashbox and its contents
- Bill validator performance and firmware versions
- Personalized access for individual employees, including high-level overview and trends for Management

Cashbox is docked on one of four stations

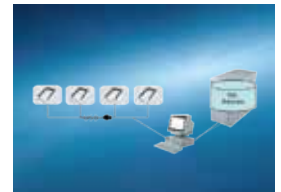

Drop & Soft Count Process:

- Reduce drop time up to 40% by eliminating the need to match asset numbers to the cashbox
- Reduce variance investigation time up to 50% by using oneTrack™ database solution

oneTrack™ Soft Count software interface

Process / Situation	Before	With oneTrack™ Solution
1 Drop and Label Cashbox	Manually label & track cashboxes	Electronically assigns Cashbox ID, label is not required
2 Hot Box Accidentally Returns to Floor	A full or not yet emptied cashbox could mistakenly be re-inserted	Once cashbox is removed from machine, it can not be re-inserted until contents are removed and cashbox is reset
3 Variance Investigation	Operator requires detailed log investigation on back office system	oneTrack™ asset revenue report is available to compare
4 Bill Validator Performance	Would have to perform manual diagnostics in bill validator	Statistics are reported automatically upon docking the cashbox
5 Floor Performance View for Entire Team	System requires piece by piece data collection	oneTrack™ databases provides trends & overviews of each day from anywhere

Data is uploaded to PC and ticket is printed. Cashbox is ready to be redeployed
